

Helios Branding Guide

Background Images

Background images can be changed to match the clients colors and branding.

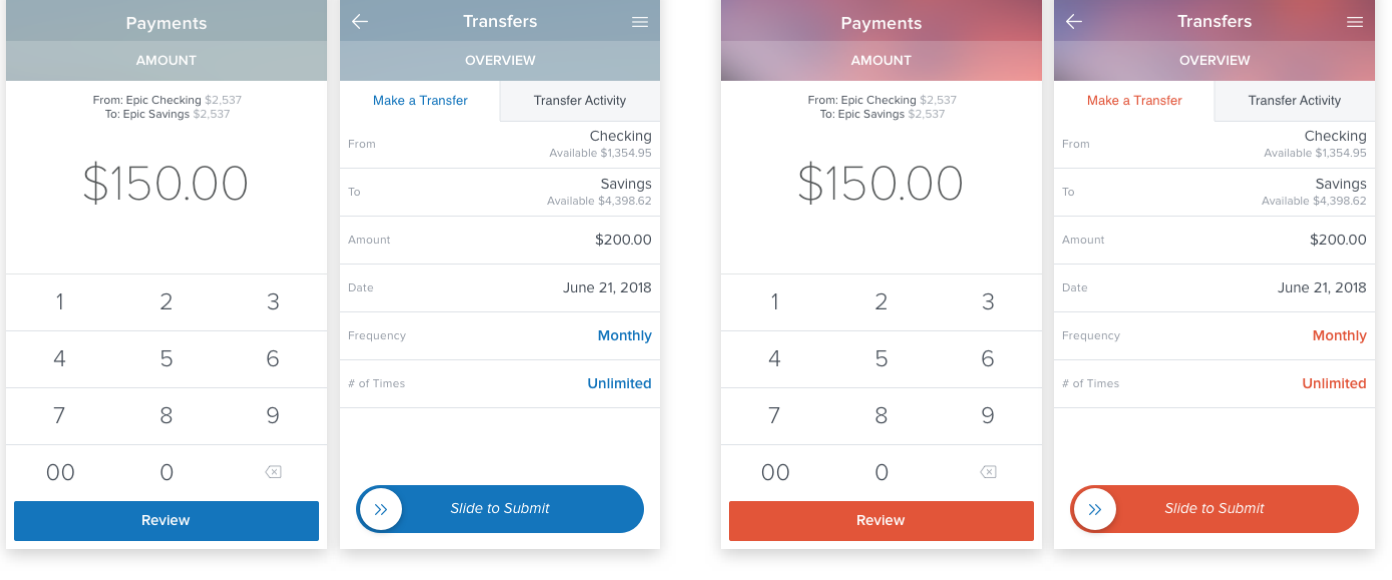

Logos

Primary Color

Primary color can be changed to reflect the clients branding in buttons and text.

Custom Tiles

Custom tiles are a quick and flexible solution for creating useful links within the app. They allow the user to launch an external app or open a web page. There are currently two variations depending on how they should be displayed: *Image Tile* & *Button Tile*.
